

GURINDERPAL SINGH

B.Tech Computer Science & Engineering Student | Software Engineering | Web Development
Bathinda, Punjab, India | +91-8427018050 | Gurindermaan999@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student with a strong foundation in Data Structures and Algorithms, DBMS, Operating Systems, and Computer Networks. Hands-on experience building web applications, desktop tools, and machine learning solutions using Python, SQL, and JavaScript. Seeking an entry-level Software Engineer or Web Developer role to build practical, scalable solutions.

EDUCATION

B.Tech in Computer Science and Engineering — Akal University, Talwandi Sabo CGPA: 6.94 / 10	Expected 2027
Class XII — Govt Model Senior Secondary School Percentage: 81.2%	2023
Class X — Govt Senior Secondary School Percentage: 98.1%	2021

TECHNICAL SKILLS

Programming Languages: C, C++, Python
Web Development: HTML, CSS, JavaScript, Tailwind CSS
Database: SQL, MySQL, DBMS, Normalization
Machine Learning: NumPy, Pandas, Matplotlib, Scikit-learn
Application Development: Flutter, PySide
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab
CS Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, Software Engineering

PROJECTS

Exam Seating Plan Generator | Python, PySide, Pandas

- Developed a desktop application to generate conflict-free examination seating plans across multiple departments.
- Implemented Excel data import, interactive seating visualization, and automated attendance and seating-plan exports.
- Officially adopted by Akal University for semester examinations; received a Letter of Appreciation for improving the planning process.

AgriSmart AI | Python, Machine Learning, AI

- Developed an AI-based agriculture solution for data-driven crop management and decision-making.
- Implemented machine learning-based analysis and intelligent recommendations for agricultural use cases.
- Designed the solution for automated analysis and practical AI-based decision support.

Akal Student Support App | Flutter, Firebase, Python

- Built a real-time student communication and support platform for students and university administration.
- Implemented multi-role authentication, Firestore data management, and Python-based query processing.
- Developed administrative reporting workflows to improve student-support management.

CERTIFICATIONS & TRAINING

- Agentic AI: From Learner to Builder — IBM SkillsBuild & CSRBOX, 2025
- Full-Stack Web Development Bootcamp — Udemy, 2025
- Agentic AI Foundations — Oracle University, 2026

ACHIEVEMENTS & ACTIVITIES

- Letter of Appreciation, Akal University — Recognized for developing the Exam Seating Planner, adopted for semester examination seating arrangements.
- Poster Design, Vismaad'26 — Designed a promotional poster for the university Tech Fest; received an official certificate.
- Lead Developer, Student Support App — Contributed to application development, feature implementation, and technical integration.
